### Acknowledgements

The Hunterdon County Planning Board would like to acknowledge and thank the residents of Hunterdon County for their invaluable participation in the creation of this Plan through the information gathering sessions, public outreach meetings, surveys, and focus groups. Public input is vital to the future planning of our parks and open space.

The Planning Board would also like to thank the dedicated staff of the Division of Parks and Recreation; the Hunterdon County Park system is made better by the hardworking staff that maintain its parks and trails, support its public environmental programming and manage its day to day operation.
