

About Wescott Preserve

Wescott Preserve is named after Lloyd Wescott (1907-1990), an agriculturalist and philanthropist who was the founder and first chairman of the Hunterdon Medical Center. Wescott and his wife Barbara purchased this farm in 1959, and raised dairy cows. In 1966, they donated 15 acres of land to the County for open space, which became Hunterdon's first County park. The park even predates the Division, which was established in 1973. The Wescotts donated an additional 65 acres to the county four years later. In 2006, 102 acres of mature woodlands and meadows along the Lockatong Creek were added through the generous efforts of the Peters family, the Hunterdon Land Trust, and the County. Next door is a former one-room schoolhouse. Built out of stone in 1861, it was known as the John Reading School or District Schoolhouse #97. The schoolhouse and the surrounding 3-acre lot are now owned and managed by Delaware Township.

Hunting

In order to control the population of deer on park property, hunting is permitted. Hunters must obtain a special permit issued by the Division. Visitors between September and February are strongly encouraged to wear blaze orange or confine visits to Sundays.

With the exception of park properties with reservable facilities, all properties are "carry in / carry out" and trash/recycling receptacles are not provided. Please plan accordingly and do not leave any trash/recyclables behind.

The Hunterdon County Division of Parks & Recreation is dedicated to preserving open space and natural resources, providing safe parks and facilities, and offering educational and recreational opportunities, all contributing to an enhanced quality of life for present and future generations.

Recreational Opportunities

Wescott offers an easy to moderate 1/2-mile loop trail off of Raven Rock-Rosemont Road that winds through meadows and hardwoods and provides a vista overlooking the creek. A 1.5-mile hiking trail connects Strimples Mill Road to Mimi's Trail. This trail continues another mile and enters the Hunterdon Land Trust's Zega Tract, which has a parking lot on Raven Rock-Rosemont Road. Fishing is permitted in the Lockatong Creek and access to the creek is by the loop trail. State Fish and Wildlife laws apply. For more information on Hunterdon Land Trust, contact them at (908) 237-4582 or <http://hunterdonlandtrust.org>.

Habitat & Wildlife

Wescott Preserve offers a unique diversity in habitat and a wonderful opportunity to view wildlife. It exhibits a stately stand of Eastern Hemlock trees, uncommon in the county. Hemlocks have been hurt by the Woolly Adelgid, an invasive insect from Asia. Studies have been done on the Hemlocks at Wescott Preserve to help discover solutions to this pest.

The meadow provides shelter and food for grassland species. Eastern Bluebirds and American Kestrels take advantage of the nesting boxes. Crickets, katydids, and other insects call from the meadow in the summer.

The Lockatong Creek, a native trout stream, provides an excellent draw for wildlife. Crayfish and other aquatic invertebrates live in the stream. Tracks from deer, raccoons, and other animals can be found along the banks of the stream and the edge of the trail. Within the wooded areas, other signs of wildlife can be observed, such as woodpecker holes in trees.

It is the policy of the County to provide reasonable accommodations to persons with disabilities upon advance notice of need. Persons requiring accommodations should make a request at least two weeks prior to program attendance.
