## Public Health Alert

### **RABIES INCIDENT**

#### **RARITAN TOWNSHIP**

#### **RESIDENTS In the area of: Prescott and Pierce Courts**

#### **Raccoon Tested Positive for Rabies**

An adult raccoon tested positive for rabies on September 10, 2020.

**Area residents who may have had contact with this raccoon any time between 8/22/20 to 9/5/20** - should notify their Primary Care Physician immediately or the Hunterdon Medical Center Emergency Room to discuss concerns, re: possible exposure and the need for post exposure prophylaxis treatment.

It is important to remember not to pick up stray animals at any time. Saliva from infected animals should be considered infectious.

Rabies is a deadly disease caused by a virus. The virus is found in the saliva of a rabid animal and is transmitted by a bite, or possibly by saliva of an open cut or the eyes. The disease is transmitted from animals to human or from animals to other animals. Left untreated, humans can be protected by receiving rabies prophylaxis after exposure.

How can we protect ourselves from rabies?

- Vaccinate your pets against rabies and keep vaccinations up-to-date
- Do not feed or touch wild animals
- Avoid contact with strays or pets other than your own

All owners of cats, dogs and livestock should have the vaccination against rabies through their veterinarian or through municipal rabies clinics. For a listing of upcoming free rabies clinics, visit the Hunterdon County Department of Health Info Line website - <http://www.co.hunterdon.nj.us/health/rabiesclinics.html>

For more information, call 908-788-1351. After hours and on weekends, call 908-788-1202. To reach the Raritan Township Animal Control Officer, Tom Dodd, call 908-722-01271.
