

# Caregiving for a Partner

## A virtual six-part support and education series

### July – December 2022

When a couple is impacted by health issues, the dynamics of the partnership shift and present new challenges. For the partner who takes on the caregiver role, there may be a host of new tasks, decisions and emotions to face, along with the changing interpersonal relationship with their partner and the impact on family and friends.

If you are a caregiver who provides care for a partner and are looking for support, please join us for this six-part series that combines education, support, coping, and connection. The group will be held virtually through an online platform beginning in July 2022.

There is no cost for participation. This program is supported by the Caregivers Initiative in Hunterdon County and facilitated by Hunterdon Behavioral Health clinicians.

**Mondays at 10AM on July 25th, August 22nd, September 26th, October 24th, November 28th & December 19<sup>th</sup>**

For more questions or to register for the virtual group please contact:
