

# Chaotic Origin of the Solar System

Chief Park Naturalist,  
Tom Sheppard

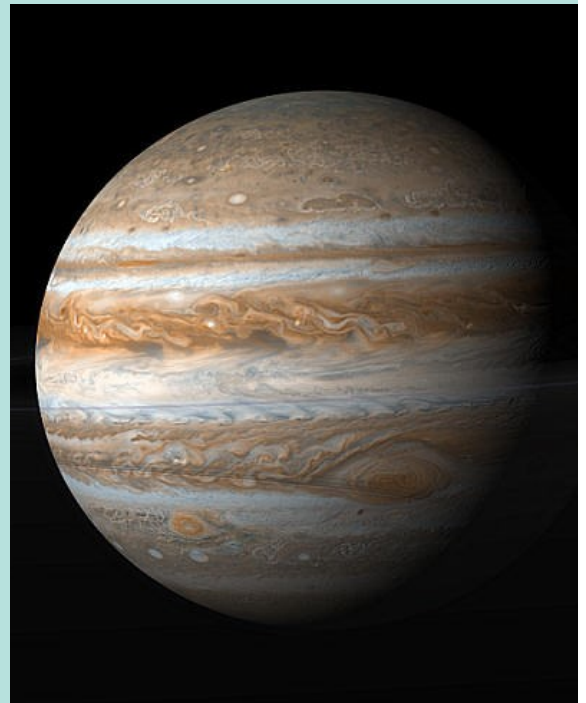

**Date: Wednesday,  
November 16**

**Time: 7:00 PM to 8:00 PM**

**Virtural Webex Program**

**Ages: 10 - Adults** (children must  
be accompanied by an adult)

**Cost: free!**

With the discovery of over 5000 exoplanets, scientists have been able to postulate what these solar systems look like and how they compare to our own system.

What is being discovered is that many of these systems are chaotic and do not behave like our own.

This has challenged how scientists think our solar system formed. Learn about the current theory that explores the origin of the Solar System and tries to explain the anomalies within our own system.

**PRE-REGISTRATION REQUIRED**

**HUNTERDON COUNTY DIVISION OF PARKS & RECREATION**
