

Mercury + Saturn

Friday, August 26, 2022

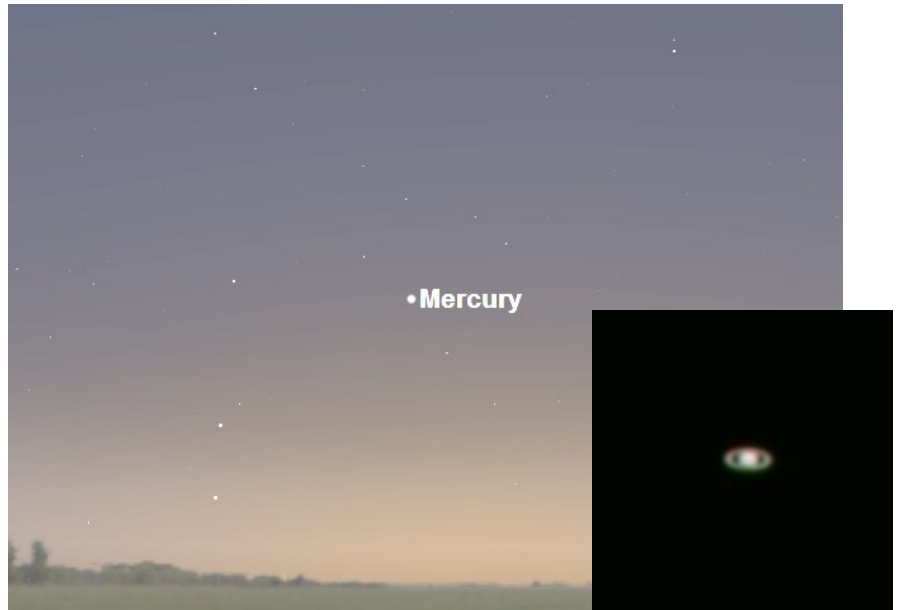

5:15 PM to 7:00 PM

Hoffman Park

Ages: 10 through Adults

(Children must be accompanied
by adults)

\$3 per person

While Mercury is one of the five visible planet that we can see with the naked eye, it is the hardest one to view. Being so close to the Sun, Mercury will be near is highest angle from the Sun on this day. As Mercury sets, Saturn will be in the rising sky, so join us as we view these two planets and anything else that pops out early.

Hunterdon County Division of Parks & Recreation

Pre-registration required. For a registration form, stop by the Arboretum or download one from our website:
