## Hunterdon County's Health Department Provides

### Covid-19 Test Kits Free To County Residents

The Hunterdon County Health Department recently held two COVID-19 test kit distribution events at the Route 12 campus in Raritan Township on July 13<sup>th</sup> and July 20<sup>th</sup> with 4,840 test kits distributed to individuals that visited the events Hunterdon County Commissioner Shaun C. Van Doren reported.

Commissioner Van Doren, the Board's Health Department liaison, said, "When the Hunterdon County Covid-19 test center closed, the county made plans for residents to be able to pick up free at home Covid-19 test kits to help reduce the spread of infection and provide residents proof of a negative test result for employers, schools, summer camps and other agencies."

While in operation, the Hunterdon County Covid-19 testing clinic administered 8,000 tests since it opened on February 3rd.

"Our health team will continue to keep a close eye on covid-19 infections data and should there be a need to establish a clinic again, the department will be prepared to do so. I wish to compliment Health Department Director Karen DeMarco, the Medical Reserve Corps volunteers, and her entire team for their efforts," Van Doren said.

The Hunterdon County Health Department advises residents that there are numerous other opportunities still available for testing, including all CVS, Rite Aid, and Walgreen pharmacies, as well as 'The Dr. Is In' medical clinics in Flemington and Clinton, Bowkers Pharmacy in Milford, and the Holland Center Pharmacy.
